

Gene "Nick" Borman

August 12, 1944 - February 12, 2024

Gene (Nick) Borman went to be with Jesus on Monday, February 12, 2024. Gene is survived by his wife, Bette and daughter, Sara and her husband, Troy and granddaughters Isabella and Gabrielle.

Gene knew his savior well, and slipped quietly into heaven after a several year battle with Parkinson's.

Even as he struggled with the effects of the disease, he retained his good humor and warm personality.

Gene, along with his wife, Bette operated GBA Productions for several years in Oconee County producing videos and designing websites. He loved his work and the opportunities it gave him to interact with all kinds of different people in Oconee County. He was an avid model railroader and created a unique train layout in the lower level of his home.

But his true joy was his family and the times spent on Lake Keowee with family and friends.

He was an amazing husband, loving father and grandfather and he will be greatly missed by family and friends, but we all celebrate where his is and the life he is now living.

There will be a reception in his honor on Sunday, February 25, at Crossgate Church on Highway 188 north of Seneca from 2-4pm. Everyone is invited.
