“ *Seems like every time I turn around another friend from way back has passed on. I first met Buster in 1969 when we worked at Castle Cars in the Parts Department in Norfolk, VA. He was a kind easy going, soul. He taught me a huge amount about air-cooled VWs. I worked with him off and on over the years until I became a carpenter driving a 1957 Bug. I was always stopping by for parts for either the '57 or my "new" 1963 Bus. I was so into VWs that people started calling me "Mr. VW". The last time I saw Buster he was married and living in Chesapeake. I stopped by to peer into his Part Catalog he rescued from Castle Cars when they closed. I'd say it was probably 1984 when I last saw him. In 1992 we moved our new family out of Norfolk and headed to the mountains that we so loved. I am so sorry to hear about his passing. May you find some comfort in my words. I knew him well. He was a good man. Rest in peace my old friend*
