SM

“ Hazel was one of two of God's greatest gifts that I was able to be blessed with. She was always smiling even when things didn't seem to go her way. She made sure that everyone she came in contact with knew they were important and they're life mattered. She was 21years old when she was taken from us. Hazel made everyone feel loved. She worked hard and had goals she wanted to accomplish. Her sister Andi was her best friend, even though the age difference was six years apart, that was Andi's sissycakes. I will never forget the joy, talks and everything else me and my Myrtle (Myrtle the turtle) got to share with each other. She was definitely one of a kind. I will think about, miss and love her every second of every day for the rest of my life. I love the baby MS. Hazel, love your Mama.
