“ *I loved Jesse and will miss him. His sense of humor was legendary. Even while he was sick, he could make me laugh. He never lost his gift of humor. My last words to him were - " I will see you again". So, Jesse, I look forward to that day. Until then, the world is just less brighter.*

“ I remember when Jesse first started work at plant 2 before he went to QC we worked on the large line we as a group always seemed to find away to have fun even while working found out he and my dad worked together as well he would share stories about him and daddy working as loom fixers at JP Stevens. You will be missed. I hope you and dad are sharing those stores again in Heaven.

“ Jessie surely will be missed by a lot of people. I am so lucky to have had him in my life and grateful that he was their for me and my children, he made us smile with all his jokes, now we just got to learn how to live without him. I know he's in heaven looking down on all of us .He wouldn't want us to be sad, but as humans we are selfish and want him with us. Love and miss you forever, until I see you again.

“ I worked with Jessie since his start with Schneider. Thru many conversations filled with jokes and laughter, I learned about work, mustangs, and the respect he had for his kids and Sheila. His work family will miss his jokes, his smile, and his laughter that would echo throughout a QC bay. Thoughts and prayers go out to his family and friends now and in the future...

“ I had the honor of calling Jesse a friend. When at work we would argue daily about current events, life, or work. He did like a good old fashion argument. Jesse also came to my aid a number of times. if I needed help he was there to help. He would not leave a friend stranded in any situation. It was my honor to call Jesse my friend.

“ Shelia. I'm so sorry about Jesse. I know how much he means to you and how much you will miss him. He fought a long hard battle and is definitely no longer in pain. He was not only a great worker but also a good friend. He will be missed daily at Schneider and by the QC department. Wallace Beebe
