“ *Johnathan, your days you spent down here with us were a blessing. Your heart was filled with gold. You were and still are a great person and would say anything to make someone smile or take the time to ask them how their day was going. If they needed anything, to call you and you would be there to lend a hand. You had a lot of respect and hardly took no for an answer. I still can't believe you're gone to a better place. Our time spending together and cutting up with one another just wasn't enough for me. I needed more and I don't think there would have ever been enough time with you as my uncle. You were a great one. You cared about and took the time to talk to me about things that were going on in my life that I needed answers to. You gave that to me. You touch my heart in so many ways and played a big roll in my life. One thing I'll never forget is the day you got my momma to call me and got on the phone crying telling me my daughter was beautiful. There's so much more I could say about you and how blessed I was to have you in my life, something I'll hang on to forever. I'll miss you man and hearing you say "hey buddy, how you doing? You doing alright?" I love you, rip.*
