“ *I have so many great memories with my sweet Cousin Shannon...just love her and her family...I was always excited to see her growing up together at family reunions, Shannon has a very special place in my heart and always will.*

“ *Shannon was a true friend and awesome mother, friend and partner. She loved with her whole heart and possessed the ability to make you smile even when things were tough. She never gave up and lived life to the fullest. Distance and time never hurt our friendship, many talks under the moon and hopes and dreams discussed for the future. I guess that path in life we talked about, sitting on the front porch in our rockers watching the waves and seeing our Grandchildren play is no longer a reality on this realm, however as you watch from above my friend I will do my best to watch from here and know we are still together. Till we meet again, I will always see your smile in every moonlit night. To the family, I am very sorry for your loss and as you grieve I pray that God shines the light and love into your heart and allows you to feel your mother's love; for she maybe gone physically but will forever remain in your hearts and memories.*
